Career Objective

Currently pursuing MCA to further enhance technical expertise, with a strong foundation in full-stack web development using the MERN stack. Skilled in building responsive, user-focused web applications with experience in both front-end and back-end technologies. Eager to apply programming knowledge and problem-solving skills in software development projects.

Education

Master of Computer Applications (MCA) 2024 – 2026 | Current CGPA: 7.87

Late Bhausaheb Hiray S.S. Trust's Institute of Computer Application, Bandra East, Mumbai

Bachelor of Computer Science (B.Sc. CS) Graduated: 2024 | CGPA: 7.9/10

Rizvi College of Arts, Commerce & Science, Bandra West, Mumbai

Technical Skills

• Programming Languages: Java, Python, JavaScript

• Web Technologies: HTML, CSS, Bootstrap, React, Node.js, Express.js

• Databases: SQL, MongoDB

• Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)

• Tools: Git, GitHub, VS Code

Projects

• **Online Fruits & Vegetables Shop (MERN Stack + Admin Panel)** | Code | Live

- Developed a full-stack e-commerce application using **MongoDB, Express, React,** and **Node.js** for selling fruits and vegetables.
- Implemented **product filtering, category-wise browsing,** and **search functionalit**y to help users find items quickly.
- Built an **admin dashboard** to manage products (CRUD operations), orders, and inventory.
- Integrated **middleware, controllers, models,** and **route** protection to ensure secure data operations and role-based access.

• **Symptoms-Based Disease Prediction App (Flask + ML)** | Code | Live

- Built a web application using **Flask** and a **Naive Bayes** model to predict diseases based on user symptoms.

• **Personal Portfolio Website (MERN)** | Code | Live

- Built a dynamic responsive portfolio site using **MERN** to showcase projects, skills, and achievements.

Certifications

Python for Data Science | NPTEL. Jul-Aug 2023 | Link
